

Dear Professor Koike,

In 2022,

**You were among the top 10% of reviewers for *Angewandte Chemie*** in terms of number of reports completed. We thank you for valuable advice and detailed evaluations, also on behalf of those authors who benefited from your comments.

The over 21,000 referee reports that we received from 7714 different referees were instrumental in ensuring that the papers published in *Angewandte Chemie* are of the highest scientific quality. At the same time, we significantly shortened our publication times (median time from submission to first decision 23 days; median time from submission to online publication 63 days) thanks to your timely support.

As you might have seen already, all reviewers of a particular submission are now informed of the editorial decision and receive all reviewer comments by email to increase the transparency of the editorial decision making.

Please do not hesitate to share any further ideas for improvement by reply to this e-mail.

With kind regards,

Dr. Frank Maaß

Dr. Nathalie Weickgenannt

Dr. Theresa Kueckmann

Dr. Xin Su

Dr. Suzanne Tobey
